In the name of Allah, the Most Gracious, the Most Merciful

All praise be to Allah, Lord of the Worlds, and may blessings and peace be upon His trustworthy Messenger.

Furthermore , ,

I was pleased to have met my brothers here in San Diego, California, in Masjid Al-Madinah.

Our brother Omar "Abu Emad" is among the virtuous brothers whom we met in Masjid Al-Madinah.

He asked me to write a piece of poetry for him, but I politely declined. I cited to him the apology given by Imam Al-Suyuti for having mastered the science of logic, which he considered *Muharram* [forbidden in Islam]. Something good that was said about the science of logic is the following:

Ibn Al-Salah and Al-Nawawi declared it as *Haram* [forbidden in Islam],

And yet they said that the public should be aware of it.

The correct and accurate opinion states,

That it *is* permissible, as it hones the perfection of one's natural talents.

May Allah grant everyone success in doing what He loves and approves of.

المنطق بأع محرم في وقت قليل حتى لحظ المنطق قولاً جديراً .
